Project Planning Phase
Project Planning Template(Milestone Activity)

Date	31 October 2022
Team ID	PNT2022TMID39449
Project Name	Visualizing And Predicting Heart Diseases With An Interactive Dash Board

Milestone Activity Plan:

Milestone	Function(Epic)	Milestone Story Number	Story/Task
Milestone – 1	Database Connectivity and Upload of dataset	M1	The first task is to collect and fetch the dataset from the external API and connect with database using IBM Cognos and IBM Cloud, then upload the dataset.
Milestone - 2	Data Modules & Data Exploration	M2	With the uploaded dataset we create a data module and perform data exploration by creating visualizations.
Milestone – 3	Dashboard	M3	Create an Interactive Dashboard after preparing the data exploration.
Milestone – 4	Report and Stories	M4	Create Report and User stories based on the dashboard.
Milestone – 5	Web Application UI	M5	Create a web application for dashboard, report and user stories.
